### *RSI BULLETIN #92-003*

**FROM:** Daniel C. Ludwig  
**DATE:** March 23, 1992  
**SUBJECT:** Reporting Test Results

As voluntary participants in the CMA Code of Practice, test laboratories must account for all engine tests registered with the CMA Monitoring Agency. At the end of test, laboratories must submit to RSI the CMA CODE OF PRACTICE CONFORMANCE forms (page G5 and page G6 of CODE). If the test is operationally valid, certain pages are extracted from the final test report and submitted to RSI. Laboratories should attempt to have this information to RSI within thirty days of test completion, but no later than 60 days.

The required final test report forms and formats are described in the respective ASTM special technical publications, research reports and/or standards. The following list denotes the information RSI will require from the final test report.

#### Sequence IID
